excellence*

WE ARE DESTRA ENERGY GROUP

# about us

Destra Energy Group is a fully indigenous Ghanaian company providing ancillary services to key participants in the oil and gas sector and delivering power solutions through the application of renewable energy technologies.

At Destra Energy, we are driven by excellence and as such, we work diligently to find solutions that upsurge value for our clients.

Our business is directed by high standards and policies developed to address principal issues on HSE, Quality Assurance and Ethics.

We are extremely proud of our specialist team who possess the ability to understand client requirements and apply a quality-focused yet cost-effective approach to maximize client satisfaction.

## OUR MISSION

Our mission is to provide exceptional offshore and onshore support services to our clients and empower local personnel through transfer of skills, knowledge and technology.

## OUR VISION

Our ambition is to become the partner of choice to deliver operational and offshore support solutions to international oil companies, from the exploration stage through to production.

# our people

We take great pride in our highly competent and committed team who strive to achieve operational excellence.

Destra Energy Group provides ancillary services to key participants in the oil and gas sector and delivers energy solutions through the application of renewable energy technologies.

Our directors and management bring onboard experience from the upstream and downstream sector of the Ghana oil and gas industry as well as the power generation sector having worked with companies like the state-owned E&P – GNPC, Shell, Transocean, Modec and other service companies.

Their educational background spans from Petroleum Engineering, Energy Law and Policy, Political Science and Government, Logistics and Supply Chain Management, Project Management, Management in Energy Industries and Business Development.

They have also held high level management positions in service companies and are therefore poised to direct and execute projects safely and efficiently in the energy sector.

# our products & services

## OIL & GAS

### SUPPLY OF OFFSHORE SUPPORT VESSELS

Charter of Offshore Support Vessels such as AHTS, PSV, Barges, ROVs, LCVs and other specialised vessels.

### FIXED WING AND HELICOPTER SERVICES

Charter of specialised airframes to carry out different services from passenger transport, heavy-lift construction, salvage operations, medivac to resupply missions.

### MANPOWER SERVICES

We possess a large database of skilled candidates who specialise in the areas of drilling, production, HSE, etc and provide the right talent to clients at quick turnaround times.

### INTEGRITY TEST AND INSPECTION SERVICES

Specialise in NDT methods (i.e UT, PT, ECT, VI, MPI, etc) and supply advanced NDT technicians and 2nd party personnel such as welding inspectors, coating inspectors, QA/QC inspectors, load out inspectors, etc.

### DRILLING AND PRODUCTION SERVICES

Supply, Hoisting and Operation of Drilling Rigs and support services to production operations.

## RENEWABLE ENERGY

Destra Energy is focused on the development of reliable renewable energy sources in Ghana in fulfilment of the government's goal to generate 10% of electricity from renewable sources by 2020. Our services include:

### SOLAR ENERGY

Residential and commercial solar power systems.

### WIND POWER

Conversion of wind energy into power using wind turbines.

### SMALL HYDRO POWER PLANTS

Micro-hydroelectric power systems.

### WTE (WASTE TO ENERGY)

Production of electricity from waste using thermal and non-thermal technologies.

### PROJECT CONSULTANCY

Destra Energy offers a myriad of services in the development of power generation in Ghana including Business, Legal and Financial Advisory Services, Acquisition of Permits and Licenses, Acquisition of Land, Industry and Market Research, Due Diligence, Tax Exemption, Immigration, Stakeholder and Community Engagement, Project Development, Project Management, Project Agreements: Land Lease Agreements, PPAs, Grid Connection and O&M Agreements.

# our projects

## SUPPLY OF OFFSHORE SUPPORT VESSELS

### PGS MULTICLIENT 3D DWCTP PROJECT

Following a competitive tender and subsequent inspection of the Destra Energy operated vessel - MV Olga, PGS has awarded Destra Energy Group a 60day + options contract to support the company to safely and efficiently acquire 3D geostreamer data over and in the surrounding area of the Deep Water Cape Three Points (DWCTP) block offshore Ghana.

### SPRINGFIELD DRILLING CAMPAIGN - WCTP2

Destra Energy Group has been awarded a contract to supply a support vessel to Springfield Exploration & Production Limited in support of their exploratory drilling campaign in the West Cape Three Points Block 2 (WCTP2) Offshore Ghana.

The SVS Cornwallis has been deployed for this emergency support and surveillance role. The vessel has vast experience working in Ghanaian waters and is manned with a crew of high reputation, 75% of whom are qualified and experienced local personnel.

### WEASPAN 2D MULTICLIENT SEISMIC ACQUISITION PROJECT

Destra Energy was awarded a 120 day contract in April 2018 to supply three (3) support vessels to ION Geophysical, Geoex Limited and Ghana Geophysical Company Limited on the West Equatorial AfricaSPAN (WEASPAN) Project.

Destra Energy deployed the MV Sursum Corda, MV Marja and SVS Guardsman, all manned by a highly competent crew including local seafarers and supported by our experienced onshore team for this contract.

### TEN 4D SEISMIC PROJECT

Destra Energy has been awarded an ongoing contract by BGP - Bay Geophysical Services to supply two (2) chase/guard vessels in support of 4D Seismic acquisition for Tullow Ghana Limited on the TEN fields.

Destra Energy has deployed the MV Sursum Corda and MV Fenny for this project and provides all the requisite support needed for O&M of chartered vessels.

# our projects

## SUPPLY OF OFFSHORE RIG CONSUMABLES

Destra Energy supplies lubricants, paints, rig wash, rope, soap and dope, PPEs and general rig consumables to support ongoing drilling operations of Maersk Drilling and PMD Viking.

Destra operates in compliance with ISO 9001:2015 and ISO 45001:2018 ensuring client satisfaction and high HSE standards are met at all times.

## SUPPLY OF MANPOWER/CONTRACTORS

Destra Energy has provided specialist second party personnel to TechnipFMC to fulfill scope of work at the company's onshore facility in Takoradi, Ghana.

## RENEWABLE ENERGY

### SOLAR ENERGY

Destra Energy consults for Independent Power Producer, AVIOR Energy, on the development of the 20MW Nante Solar power project, in Kintampo, Brong Ahafo Region of Ghana.

# choose Destra

Our experience and strong relationships with important stakeholders in the energy sector positions Destra Energy as a strong and strategic local partner for service companies who wish to explore the upstream market in this region.

We are certain that our in-depth knowledge of the industry, the local jurisdiction and regulations as well as our understanding of the dynamics of doing business in Ghana will be of particular benefit to service companies who seek to set up and thrive in the country.
