

CONSTROMART - QUALITY POLICY

Introduction

Constromart is a firm of engineers, construction advisors and project managers. Our consultancy services include feasibility studies, design review, detailed engineering design and project management.

Our primary commitment to our clients is to meet the objectives and requirements of the customer specifications.

We are committed to the application and maintenance of the quality management system corresponding to the requirements of ISO 9001:2008 standard.

The Management of Constromart is committed to continual improvement of the quality management system and any associated activities. Constromart aims to improve the effectiveness of the quality management system by:

- Understanding customer's needs and expectations
- Compliance of contractual and statutory requirements
- Managing our suppliers while considering their needs and expectations to deliver the planned results
- Establishing the company's quality objectives consistent with the quality policy, measuring the objectives on an ongoing basis, and reviewing the achieved results in the management review meeting.
- Gathering information about the latest technologies and being innovative in providing our services
- Training of our personnel
- Acting in the interest of our community

This policy is reviewed on a periodical basis for continuing suitability and effectiveness.
