

Tullow Ghana Limited

SCOPE OF WORK

(PROVISION OF ANCHOR HANDLING TUG SUPPLY VESSEL SERVICES TO SUPPORT ONGOING OPERATIONS)

Background:

Tullow Ghana Ltd has identified a need for the chartering of an Anchor Handling Tug Supply (AHTS) vessel to support ongoing offshore operations inclusive of Tandem Mooring and Centenary Anchor Leg Mooring (CALM) buoy export operations at Tullow Ghana's two (2) FPSO's (Jubilee and TEN Fields).

Summary of Scope of Work AHTS:

- Capability to tow, with BP in the region of 150Te to 180Te range
- Classification Society recognised DP-2 and Fi-Fi 1 capabilities
- On deck cargo and underdeck bulk cargoes transportation capability
- General support of offshore Terminal operations and maintenance activities
- Other tasks normally associated with a vessel of her size and type in the offshore oil and gas sector, but always within the design intent and capability of the vessel
- Provision of a daughter craft capability, inclusive crewing and maintenance. Workboat to be located on vessel complete with appropriate single point Launch and Recovery System Associated with ROVs (LARS).
- Preferential selection will be given to fuel efficient vessels (e.g. Diesel electric propulsion systems)

Contract Duration:

Three (3) years firm with 4 x 6 months options at Charterers favour
