WHO WE ARE...

RELIABILITY IS AT THE CORE OF OUR BRAND IDENTITY AND FORMS AN INTEGRAL PART OF OUR DAY TO DAY ACTIVITIES

OUR VISION

To be the leading construction company wherever we operate, consistently delivering quality solutions and a pleasure to do business with.

CLIENT

Our approach to our clients and the relationships we build are at the very heart of our success. We understand that the business process begins and ends with their needs and expectations. We further understand that the projects that our clients bring to the market provide employment for our people and enable us to deliver value to our stakeholders. These are the primary relationships from which we procure our existing work as well as our future work and for this reason we strive to exceed expectations on every project we construct.

FLEXIBILITY

Flexibility assumes a number of guises within the organisation. We are flexible in our strategic thinking, open to change and innovation, which may challenge an existing course of action. We are flexible with our clients when it comes to their requirements and we have the flexibility to direct our internal resources towards those activities where they will have the greatest effect. Together they create an organisation that, while significant in size, is adaptive to its environment.

PEOPLE

The success of any organisation can be attributed to its people. Within WBHO, across all the countries in which we operate, are teams of committed and motivated people who strive to make a difference within their individual areas of influence. The executive management is highly accessible to both our staff and clients and this sets a culture within the organisation, which is adopted and followed by the vast majority of our employees, each willing to go the extra mile to deliver their best.

WHAT WE DO...

SUSTAINABLE CLIENT RELATIONSHIPS ARE ACHIEVED THROUGH THE CONSISTENT DELIVERY OF A QUALITY PRODUCT

BUILDING AND CIVIL ENGINEERING

WBHO's building division is recognised as a leader in the South African building industry. Having established a reputation for quality, reliability and delivering against budget the division regularly exceeds client expectations. The division is able to negotiate a number of projects every year as a result. The Civil engineering division adds diversity to the division's margin streams and strengthens the overall earnings.

ROADS AND EARTHWORKS

The roads and earthworks division, which operates across multiple traditional civil engineering disciplines, has through strategic acquisitions gained exposure to a number of additional specialist disciplines. The division has a particular strength when operating in Africa and has developed a successful formula for trading in the region. The division differentiates itself with its modern fleet of plant and effective teams who are encouraged to work together with consultants and clients to the mutual benefit of all parties.

AUSTRALIA

WBHO entered the Australian market in 2001 after acquiring an initial 40% interest in Probuild Constructions. A decade later, with WBHO's support, Probuild has developed into a tier one contractor having shown consistent yet controlled growth throughout the period. Key to the success of this relationship has been the similar nature of the values, culture and attitudes of management.

OTHER OPERATIONS

The overriding purpose of WBHO's other operations is to expose the group to a range of diversified margin streams within the boundaries of the construction environment, in order to provide a stable earnings platform for the group's shareholders. These markets include private public partnerships, concession arrangements and turnkey projects as well construction materials and property investments.

ABOUT WBHO GHANA

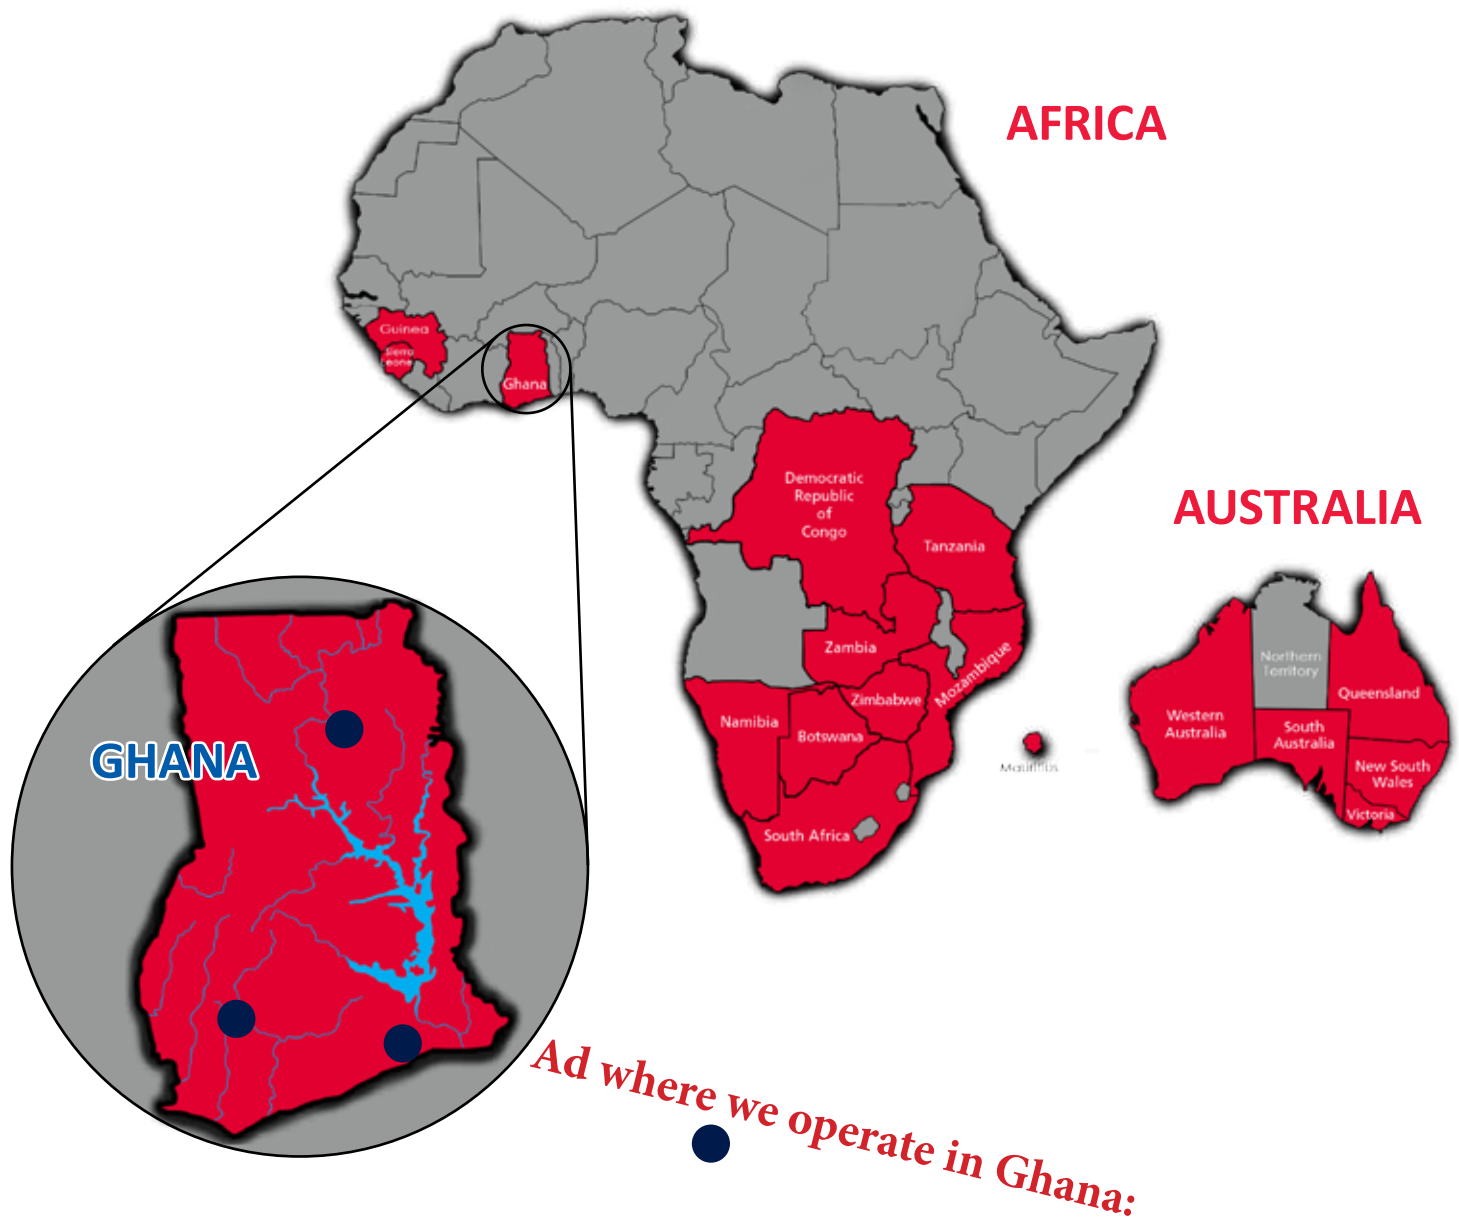

WBHO Ghana Limited is a wholly owned subsidiary of WBHO Construction, established in March 2005. WBHO Ghana has undertaken numerous projects such as the Tailings Facility and Infrastructure works contract at the Ahafo Gold Mine for Newmont. Our most recent projects include; Iduapriem Greenfields TSF to the value of US\$ 70 million for AngloGold Ashanti and the TSF and Infrastructure contract for the new Newmont "Golden Ridge" mine valued at US\$ 60 million

WBHO Ghana have also recently completed their first two shopping malls in Ghana. The Westhills Shopping mall in Accra was completed, and opened for trading in October 2014, while Junction Mall, which is situated in Tema opened for trading in November 2014.

WBHO Ghana receives the full support from WBHO Construction in terms of plant, equipment, finance, personnel and expertise.

WBHO Ghana was awarded the Africa Regional Supplier of the Year trophy by Newmont. Newmont also recognized WBHO at Ahafo for having over 3.5 million hours without a lost time injury since 2006 on the Project.

GHANA ROADS & EARTHWORKS PROJECTS

PHOTO: GREENFIELDS TSF IDUAPRIEM

AHAFO- Newmont Ghana Gold Limited

The Principal: Newmont Ghana Gold Limited

The Agent: Lycopodium Ghana Limited

Consulting Engineer: Knight Piesold Consulting

Contract Period: Since May 2005 *

Value at Completion: USD 80 M

Location: Kenyasi area, Brong Ahafo Region, Ghana

Construction work involved the following:

- Construction of phase 1 & 2 Tailing Storage Facility
- 264 Ha tropical rain forest bush clearing
- 489 000 m3 Topsoil stripping
- 300 000 m3 unsuitable to Spoil
- 996 000 m3 Borrow to fill
- 117 000 m3 Cut to Fill
- 40 000 m associated pipe work
- 594 000 m3 soil liner
- 991 000 m2 HDPE lining
- TSF Stage 3-8 completed subsequently up to 2012
- TSF Stage 9-10 early works (Ongoing)

AHAFO- Amoma Pit Development

The Principal:	Newmont Ghana Gold	Contract Period:	Nov 09 – Dec 10
The Agent:	Golder Associates	Value at Completion:	USD 5.9m
Consulting Engineer:	Golder Associates	Location:	Kenyasi

Construction work involves the following :

- Bush Clearing and Top soil stripping for pit & waste dump.
- Construction of the Sediment Control Structure
- Installation 16 number multi plate culverts they also varied in size.
- Placement of gabion baskets and mattresses.
- Construction of 2 HDPE lined holding ponds

AHAFO TSF Construction Project

The Principal:	Newmont Ghana Gold	Contract Period:	Nov 11 – May 12
The Agent:	Knight Piesold	Value at Completion:	USD 7.1m
Consulting Engineer:	Knight Piesold	Location:	Kenyasi

Construction work involves the following:

- Construction of Earth embankments
- Soil lining
- Installing of HDPE liner
- Decant structure

Ad more info:

AHAFO TSF Expansion 1&2

The Principal:	Newmont Ghana Gold	Contract Period:	Aug 06 – Feb 07
The Agent:	Knight Piesold	Value at Completion:	USD 6m
Consulting Engineer:	Knight Piesold	Location:	Kenyasi

Construction work involves the following :

- Bush Clearing & tree felling
- Topsoil stripping & stockpiling for future use
- Lifting of existing embankments
- Soil Processing
- Extending existing HDPE plastic lining.
- Extending existing pipe filters and drains.

AHAFO TSF Expansion 3&4

The Principal:	Newmont G G Ltd Ltd	Contract Period:	June 08 – Feb 09
The Agent:	Knight Piesold	Value at Completion:	USD 5.5m
Consulting Engineer:	Knight Piesold	Location:	Kenyasi

Construction work involves the following :

- Bush Clearing & tree felling
- Topsoil stripping & stockpiling for future use
- Lifting of existing embankments
- Soil Processing
- Extending existing HDPE plastic lining.
- Extending existing pipe filters and drains.

AHAFO TSF Expansion 5&6

The Principal:	Newmont	Contract Period:	Feb 09 – Oct 09
The Agent:	Knight Piesold	Value at Completion:	USD 6M
Consulting Engineer:	Knight Piesold	Location:	Kenyasi

Construction work involves the following :

- Bush Clearing & tree felling
- Topsoil stripping & stockpiling for future use
- Lifting of existing embankments
- Soil Processing
- Extending existing HDPE plastic lining.
- Extending existing pipe filters and drains.

AHAFO TSF Expansion 7&8

The Principal:	Newmont	Contract Period:	June 11 – March
The Agent:	Knight Piesold	Value at Completion:	USD 5.5m
Consulting Engineer:	Knight Piesold	Location:	Kenyasi

Construction work involves the following :

- Bush Clearing & tree felling
- Topsoil stripping & stockpiling for future use
- Lifting of existing embankments
- Soil Processing
- Extending existing HDPE plastic lining.
- Extending existing pipe filters and drains.

Greenfields TSF – Iduapriem

Employer:	Anglo Gold	Value at Completion:	US\$ 70.0 m 12
Consulting Engineer:	SRK Consulting	Location:	Ghana
Contract Period:	November 2010 – February 2014		

Construction work involves the following:

- Earthworks and Civil Engineering Services and ancillary works for a Tailings Storage Facility inclusive of:
- Residue System
- Overland Pipework

Compartment 1 – 4 - Iduapriem

Employer:
Consulting Engineer:
Contract Period:
Value at Completion:
Location:

Anglo Gold Ashanti
SRK Consulting Engineers
November 2010 – September 2011
US\$ 25.9 m
Ghana

Construction work involves the following:

- 569.2 of lined tailings dam
- 1.5 km of Over land pipe line Trench

Ad more info:

Compartment 5 – 10 - Iduapriem

Employer:	Anglo Gold Ashanti
Consulting Engineer:	SRK Consulting Engineers
Contract Period:	October 2011– Jan 2013
Value at Completion:	US\$ 38.3 m
Location:	Ghana

Construction work involves the following:

-829000 of Lined Tailings Dam

Ad more info:

Compartment 11 – 12 - Iduapriem

Employer:	Anglo Gold Ashanti
Consulting Engineer:	SRK Consulting Engineers
Contract Period:	Feb 2013– June 2013
Value at Completion:	US\$ 7.6 m
Location:	Ghana

Construction work involves the following:

- Up stream raise on entire GTSF parameter by 2.5 m
- Fill volume 190 000 cubes
- 192 000 m of HDPE.

Ad more info:

Akyem Project – Construction Phase

Employer: Newmont GGL
 Consulting Engineer: Lycopodium & Knight Piesold
 Contract Period: April 11 – May 13
 Value at Completion: USD 60 m
 Location: Abirem

Construction work involved the following:

- Perform bulk and detailed earthworks packages 1 & 2
- Construct Tailings Storage Facility
- Construction of Haul Roads for mining operation
- Construction of Pit Diversion Channel for mining operation

Topsoil Strip	1 004 692.12	m3
Unsuitable	384 489.25	m3
Design Cut	3 091 880.72	m3
Design Fill	2 328 495.69	m3
Cut to Stockpile	192 183.00	m3
Wearing Course	356 166.67	m3
Soil Liner (m2)	1 531 00.00	m2
HDPE Liner (m2)	1 511 00.00	m2
All Pipework in TSF (m)	47 324.00	m

Akyem Project Pre-Strip

Employer:	Newmont Ghana Gold Ltd
Consulting Engineer:	N/A
Contract Period:	Dec 11 to Aug 12
Value at Completion:	USD 5.2m
Location:	Abirem

Construction work involves the following:

- Clearing 94 ha of forest including stripping of topsoil
- Felling of 1200 no of trees for future mining.
- 370 000m³ of earth was moved to create haul roads.
- Construction of 0.6 m of thick wearing coarse on top of carefully placed geotextile to finish of the haul roads for the mining operations.

Akyem Project – Pit Diversion

Employer:	Newmont GGL
Consulting Engineer:	N/A
Contract Period:	Dec 12 – Sept 13
Value at Completion:	USD 4.3m
Location:	Abirem

Construction work involved the following:

- Clearing of 42ha of forest including stripping topsoil and felling of trees.
- Storm water diversion channel with a depth of 30m and a length of 630m was constructed.
- The channel consisted of a cut quantity of 462,000m³ of which 75% was rock. The removal of the rock required extensive drilling and blasting.

Obuasi South Footprint Expansion

Employer: AngloGold Ashanti
Contract Period: January 2012 – December 2012
Value at Completion: US\$ 13.5m
Location: Ghana

Construction work involved the following:

- Footprint Reduction Works
- Clearing and Grubbing
- Removal of Topsoil and spoil material
- Construction of Haul Road, Roads and Terraces
- Construction of Dams and pollution control structures
- Installation Service
- General Earthworks and Maintenance

- Airport Access Road
- Rehabilitation and Upgrade of Access Road

- Raw Water Dam
- Installation of a suitably sized (680 000 m3) return water dam (RWD) at the Sansu Tailings Storage Facility (TSF)

Obuasi – Airport Road

Employer:	Anglo Gold Ashanti
Contract Period:	January 2012 – December 2012
Value at Completion:	US\$ 13.5m
Location:	Ghana

Construction work involves the following:

- 8km of Road to the Airport which was 10metres wide.
- Construct of U drains of 450mm and 600mm deep.
- We also did 600mm, 900mm and 1200mm diameter culverts.

Asanko Plant Site

Employer:	Adansi Gold Company (GH) Limited
Consulting Engineer:	DRA Global
Contract Period:	01 August 2014 – 22 August 2015
Value at Completion:	US\$ 6.8 million

Construction work involves the following:

Certificate of Registration

This is to certify that the Quality Management System of

WBHO CONSTRUCTION (PTY) LTD WYNBERG, SANDTON

*has been assessed and found to
satisfy the requirements of*

ISO 9001:2008 QUALITY MANAGEMENT SYSTEMS - REQUIREMENTS

in respect of

- **BUILDING CONSTRUCTION INVOLVING:**
RETAIL CENTRES; HOTEL AND RESORTS; LEISURE AND RECREATION;
OFFICE AND COMMERCIAL BUILDINGS; PHARMACEUTICAL FACILITIES;
HOSPITALS AND CLINICS; WINERIES; RESTORATIONS AND ALTERATIONS;
EDUCATION AND RESEARCH RESIDENTIAL; DEVELOPMENTS AND OTHER
MISCELLANEOUS BUILDING
- **CIVIL ENGINEERING INVOLVING:**
WATER AND EFFLUENT TREATMENT; RESERVOIRS; WATER CONTROL
AND MARINE WORKS; MINING; SILOS AND TOWERS; POWER AND
DISTRIBUTION STATIONS; HEAVY INDUSTRIAL PLANTS; INDUSTRIAL
PARKS AND OTHER SUNDRY CIVIL WORKS
- **ROADS AND EARTHWORKS INVOLVING:**
BRIDGES; FREEWAYS; ROAD CONSTRUCTION AND REHABILITATION;
RAILWAYS; TOWNSHIP INFRASTRUCTURES; PIPELINES; DAMS; MINING
AND TUNNELLING AND VARIOUS OTHER EARTHWORKS

EXCLUDING CLAUSE:

7.3 DESIGN AND DEVELOPMENT

This certificate, including the schedule which forms an integral part thereof
- is issued without alteration;
- is identified by the applicable registration number;
- is subject to any condition or limitation contained therein;
- is valid subject to ongoing compliance with certification requirements;
- bears the embossed SABS Commercial seal. In the absence of the
seal, the certificate and the schedule shall be invalid; and
- the certificate may be authenticated by referring to the register of
"Certified Clients" on the SABS Commercial website (www.sabs.co.za)

Registration Number **LS 3356**

Effective Date **5 June 2013**

Expiry Date **11 June 2016**

Date of Original Registration **28 May 2004**

Chief Executive Officer

B. Mhlooma

Golden Ridge Mine	Newmont	2 818 729 hrs
West Hill Mall	Delico Property Development	2 148 000 hrs
Junction Mall	RMB Westport Properties	776 725hrs
Achimota Mall	Delico Atchimota Ghana	398 129 hrs
Asanko Plant Site	Adansi Gold Company	91 628 hrs

Environment

- WBHO Ghana, all its staff and contractors are aware of the demands placed on our industry to adhere to international environment protection protocols.
- WBHO Ghana implements internationally acceptable facilities for waste and hydrocarbon management.
- An Environmental Management System is implemented in Ghana based on ISO14001 principles

Ghanaian Staff & Participation

- WBHO embrace the concept of localization in all of the countries within which we work as a means to sustainability.
- Ghana is no different, and our drive towards growing our Ghanaian staff within our organization is on going.
- WBHO Ghanaians have not only held their own in the development of Staff for our local operations, but we have even managed to transfer some of our Ghanaian staff as "Expats" onto our other operations in Africa.
- This drive towards a sustainable business is top priority, and this is evident in our growth of Ghanaian Nationals within our organization.
- WBHO currently have two Construction sites managed by Ghanaian nationals

Training & Development

- WBHO, in co-ordination with the Kwame Nkrumah University of Science and Technology, are engaged in a program of accommodating newly qualified engineers with the company operations for their internship and National Service.
- To date 28 students have been accommodated, of which 10 are now employees and 5 are still serving their nation service.
- WBHO has also identified Ghana as a pool of talent, and have used 28 Ghanaians, initially employed in Ghana, on other projects in Africa.
- WBHO train and promote our employees rather than employing new people. 18 former general workers are now fully qualified Equipment Operators. A further 9 operators have been promoted to Foreman / Supervisor Level.
- The company has qualified Operator Trainers that assess our operators and, if found competent, issue them with accredited certification. This on going operator training has allowed WBHO Ghana to employ over 95% of our operators from within Ghana.
- WBHO Ghana also assists local entrepreneurs in starting up their own Companies. This entails assisting them financially and grooming them in best management practices to grow their companies and aspire to international standard.

Examples of this are :

1. Alexiboam Co Ltd, originally a chainsaw operator and now an Earthworks Contractor with a fleet of 20 well maintained Earthworks machines averaging a monthly turnover of up to \$500 0000. WBHO has also over the years assisted Alexiboam Financially to purchase some new and used Caterpillar machines. Some of these items have already been paid off in full and are on full hire back to WBHO at Ahafo
2. JH Benett is a company formed from former WBHO employees who now own and run their own HDPE Lining installation company. They currently do almost all of WBHO HDPE Lining installations, with a small portion being carried out by our own team. WBHO assist them with their assesments every 2 years in order to maintain their Plastic Technician Accreditation. They have also purchased the necessary equipment to do this work with financial support from WBHO.
3. WBHO were also approached by AngloGold Ashanti to take on board a company Ramoth Services on the Obuasi contract and to mentor them through the various processes. This mentoring started over a year ago and they are already in a position to tender against us on some of the works.
4. Kwafadok Company Limited were supported financially to put up accommodation in Akyem which has accommodated WBHO and Lycopodium and Newmont Staff.

In order to improve our level of supervision, WBHO have also embarked on a "Learner ship" program were a trainer carriers out both classroom training, as well as site assessments on the various modules on the program. Although this is a new initiative in our training, the feedback so far from the Supervisors is one of a very positive nature.

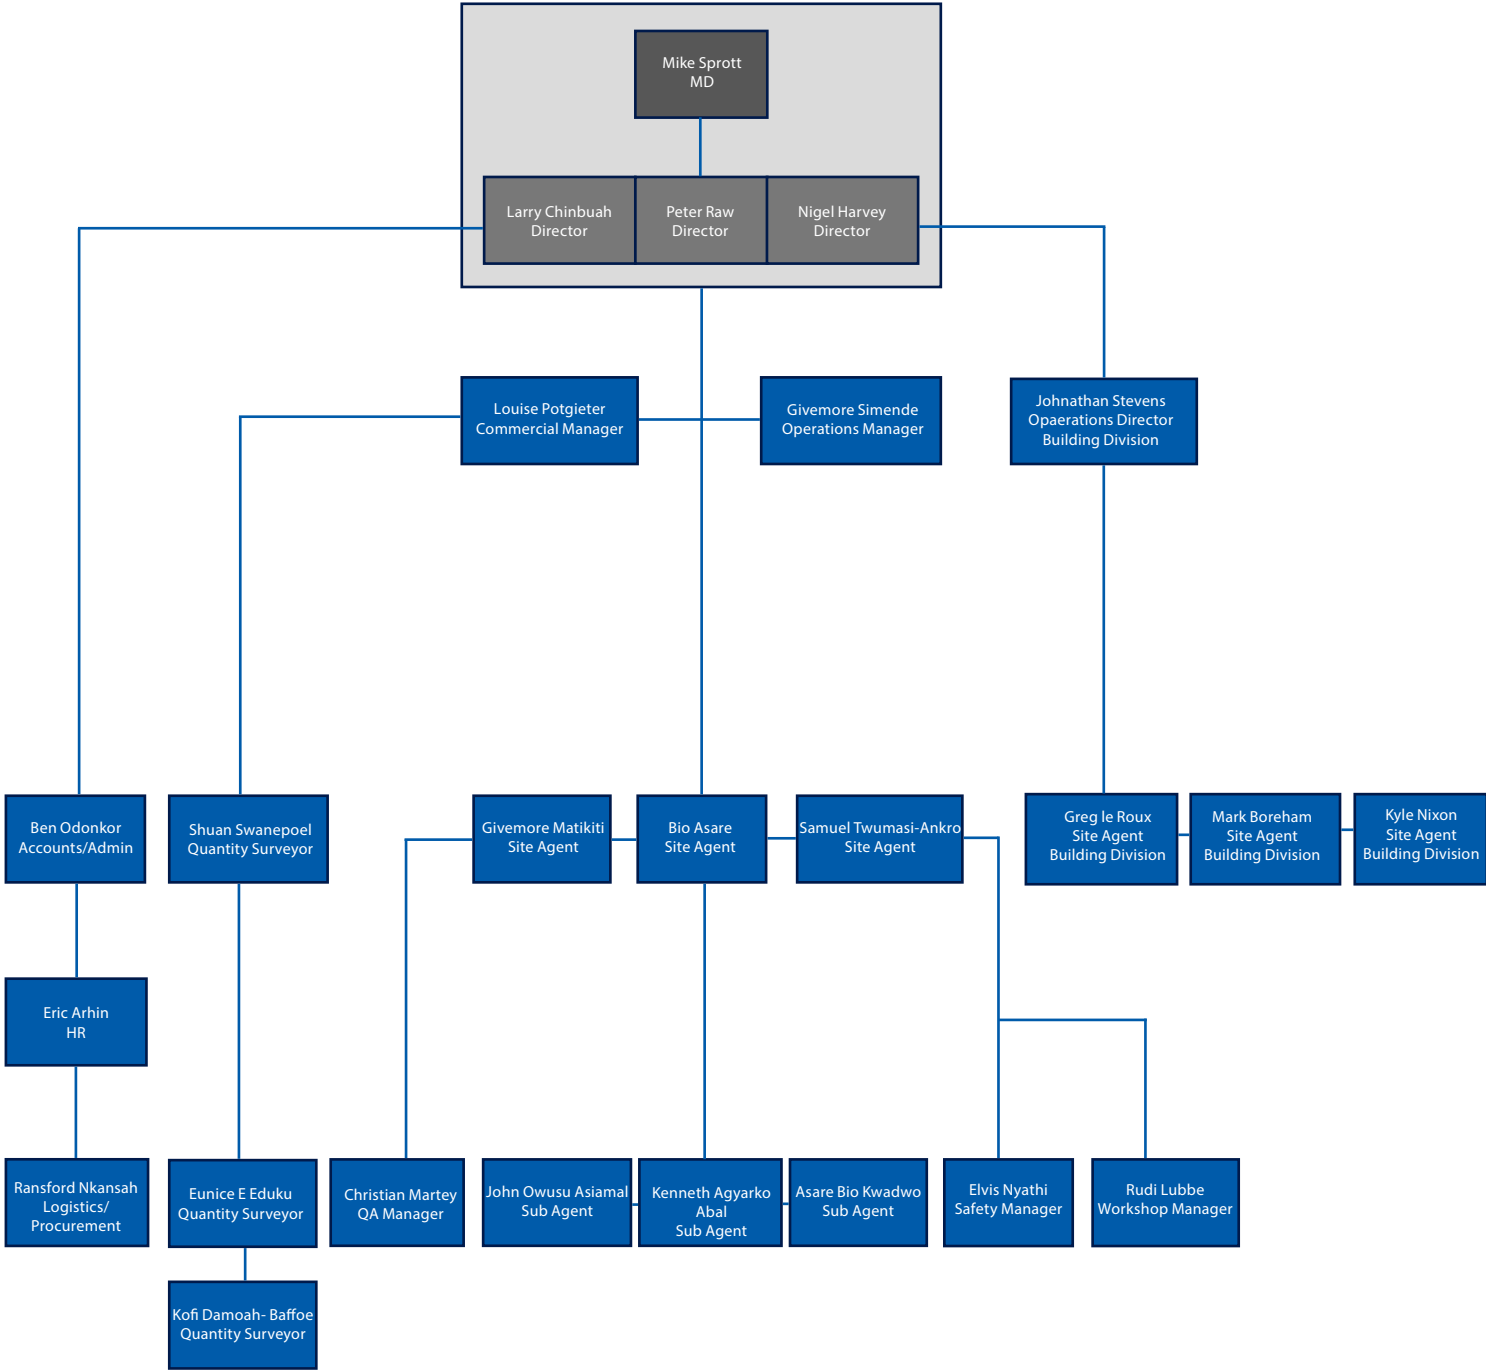

Local Procurement

- Over the years WBHO have forged good relationships with Ghanaian owned companies throughout the regions.
- This includes Plant Hire Companies, merchants in spare part supply, safety products, catering, IT and general suppliers.
- WBHO also have an internal procedure based on supporting local-local industries in the areas where we work, so as to develop very small ventures into successful businesses.
- This initiative has resulted in WBHO's dependency on importing from abroad to reduce dramatically. 90% of the goods are now found on the Ghanaian market at competitive prices.
- WBHO also try and make use of the local-local where available on the various sites and often these are employed through the local businessman to assist them in promoting their businesses.

Group Structure - WBHO Ghana

Previous Contracts

- WBHO is one of the top 3 Construction Companies operating in the Sub Saharan Region. WBHO has over 40 years experience in civil engineering and we specialise in fast-track construction projects, satisfying the needs of our clients and our share holders. WBHO has been involved in 3 major PPP's, (Toll Road BOT Projects / DTI Building, Pretoria), 3 no. 2010 soccer World Cup stadiums, namely, Greenpoint Stadium in Cape Town, Polokwane Peter Mokaba Stadium and the Moses Mahidba Stadium in Durban and the King Shaka International Airport outside Durban, KZN, as well as the Gauteng Freeway Improvement Project.
- WBHO has developed an extremely close relationship with many clients and has undertaken numerous mining contracts with the likes of Anglo Coal, SASOL, Anglo Platinum, BHP Billiton, Xstrata, Lonmin, Debwsana (Botswana) and many other International mining houses. WBHO specialises in delivering the Client's needs within their budget and time frame.

Conclusion

- WBHO Ghana are very proud of the excellent relationships it has built over the past seven years with the various Clients in Ghana. We hope to develop and improve the services provided.
- These efforts were rewarded in 2010 with WBHO Ghana being awarded the following prestige award and the 2007 – 2012 5 million LTI free Man hours award.
- THE NEWMONT SUPPLIER OF THE YEAR AFRICA AWARD 2010 - 2012
